

# **AL MANSHEYA**

**Trading and Contracting**

**- COMPANY PROFILE -**

## ABOUT US

At Al Mansheya Establishment for Trading & Services, we understand the challenges that come with modifying existing structures. That's why we offer reliable and well-coordinated steel retrofitting solutions to support structural upgrades, extensions, and reinforcements without compromising the integrity of the building. Whether it's integrating steel beams into existing block work, modifying structural layouts, or reinforcing older buildings to meet current standards, our team handles every step — from demolition and preparation to installation and finishing. We work closely with engineers and consultants to ensure every solution is safe, practical, and built to last. We take pride in our hands-on approach, experienced crew, and attention to detail, delivering each project with minimal disruption and maximum efficiency.

# VISION

To be a trusted name in structural retrofitting and building reinforcement, known for delivering safe, reliable, and technically sound solutions that extend the life and strength of existing structures across Qatar.

To provide efficient and precise steel retrofitting solutions for existing structures by combining skilled workmanship, technical expertise, and a commitment to safety – ensuring every project is delivered with quality, reliability, and minimal disruption.

# MISSION
